DETAILED ACTION

Acknowledgment of Receipt

Receipt of Applicant's Response, filed 4/24/2007, in response to the Office Action mailed 10/24/2006, is acknowledged and has been entered. Claims 49 – 56 are pending. Claim 49 has been amended.

Response to Arguments

Applicant's arguments on page 5 of the Response with respect to the rejection of claims 49 – 56 under 35 USC § 112 2nd paragraph have been fully considered and are persuasive. The rejection of claims 49 – 56 under 35 USC § 112 2nd paragraph has been withdrawn as having been overcome by amendment.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to

Art Unit: 1618

be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 49 – 56 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 – 29 of U.S. Patent No. 6,696,040 for reasons set forth in the Office Action mailed 10/24/2006.

The examiner acknowledges Applicant's willingness to file a terminal disclaimer to overcome the double patenting rejection, however, no terminal disclaimer has been received at this time. The claims stand rejected.

Specification

The disclosure is objected to because of the following informalities: the priority information should be updated to reflect that US. Application 09/904,343 is now US patent 6,696,040. Appropriate correction is required.

Allowable Subject Matter

Claims 49 – 56 contain allowable subject matter and would be allowable were a terminal disclaimer to be filed to overcome the obviousness-type double patenting rejection.

Conclusion

No claims are allowed at this time.

Applicant's arguments as set forth in the aforementioned Response have been fully considered. The examiner acknowledges the allowable nature of claims 49 – 56 and also acknowledges Applicant's willingness to file a terminal disclaimer to overcome the double patenting rejection, however, no terminal disclaimer has been received at this time. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
